Re: 2010 Road Project and Parking Assignment

Date for Striping and Numbering of Spaces

Striping and numbering of parking spaces is scheduled for Monday, November 29, 2010 and Tuesday, November 30, 2010. It is very important that we do not smear the paint. Please continue to park at the rear of Dorsey Village Plaza those days. The plaza owner will tow any cars parked in fire lines, handicapped spaces or in front of their delivery doors. Please do not park in spaces immediately in front of their businesses where customers park. There will be times in the future when we may need to request to use the plaza for parking, and we hope that the plaza owner will allow this again.

Parking Assignment

All unit owners without an attached garage will be assigned one parking space. This is consistent with the manner in which parking had been assigned previously. Some parking spaces are not in the same location as they were previously, so please be sure to park in the correct space. We previously had two handicapped parking spaces. To be in accordance with guidelines regarding handicapped parking, we designated two more spaces as handicapped. Through construction, we were able to gain four new parking spaces. Effort was put into ensuring that parking spaces were numbered in a consistent manner and that owners are able to park as close as possible to their unit.

In walking through the development, it was observed that there was one unit which had their unit number spray painted on two parking spaces. This was the only unit with two assigned spaces. This unit will only be assigned one space. There was also one unit with an attached garage which had their unit number spray painted on a parking space. This was the only unit with an attached garage and assigned parking space. This unit will not be assigned a space.

Assigned parking spaces will be number "01" through "35" rather than by unit number. This change will prevent individuals who do not live in the community from identifying who is at home and who is away from home.

Cars parked in reserved spaces will be towed. Please make sure your guests know where to park. It is the responsibility of the owner to inform any tenants of parking assignments.

Parking assignments are as follows:
